## The Vitrolife Group is now a member of the United Nations Global Compact

The Vitrolife Group is pleased to announce that we have joined the United Nations Global Compact initiative — a voluntary leadership platform for the development, implementation, and disclosure of responsible business practices.

With this announcement, the Group is proud to join thousands of other companies committed to taking responsible business action to create a world where the next generations can prosper.

The UN Global Compact is a call to companies everywhere to align their operations and strategies with ten universally accepted principles in the areas of human rights, labour, environment and anti-corruption, and to take action in support of UN goals and issues embodied in the Sustainable Development Goals (SDGs). Launched in 2000, the UN Global Compact is the largest corporate sustainability initiative in the world, with more than 15,000 companies and 3,800 non-business signatories based in over 160 countries, and more than 69 Local Networks.

*“Joining the United Nations Global Compact is a natural step in our sustainability journey. This initiative strengthens our commitment to aligning strategies and operations with universal principles on human rights, labour, environment, and anti-corruption. It is guiding us as we are taking business action for the world we all want and for the generations to come.”*

**Thomas Axelsson, CEO**

Going forward, the Group commits to communicate on its progress towards the ten principles on a yearly basis. The Communication on Progress will be available in the UNGC website.
